AWARENESS

In June, we held our signature **unite@night** walks! We had 47 walks and have already raised \$112,110 (and have almost 2,000 registered walkers) with four walks to go! Congratulations to all of our walk Chairs and their friends and family! To read more, participate or donate, click [here](#).

RESEARCH

CSF hosted the [International Hydrodynamics Research Symposium](#) on July 9th and 10th. Engineers, physicists, neuroradiologists, and neurosurgeons presented research findings to foster collaboration between individuals and institutions from around the globe.

Dear Mrs. Poppe,

I would like to send my thanks for your help in organizing and funding the CSF symposium in Amiens. The talks were inspiring and the meeting format allowed for plenty of time for conversation and networking. For me at least two ideas for collaboration have emerged and will be explored when possible. Again, my thanks for helping to create this opportunity for us.

Kind regards,

Dr. Piotr Orłowski

*Career Development Fellow in Imaging
Keble College, University of Oxford*

EDUCATION

In August, Paul Farrell, CSF's Chairman of the Board of Directors, was featured on [Augusta Golf Show](#) with John Patrick. To hear the podcast, click [here](#) or [download from iTunes](#).
