Richard Ellenbogen, MD

TOPIC

When am I a candidate for surgery? Updated Surgical Techniques

BIO

Richard G. Ellenbogen, MD, FACS is Professor and Theodore Roberts Endowed Chair of the Department of Neurological Surgery at the University of Washington. He is an attending neurosurgeon at Harborview Medical Center, Seattle Children's Hospital and UW Medical Center. In addition, he is Director of the UW Medicine Neurosciences Institute, Director of the Neurological Surgery Residency Program and Founding Co-Director of the Seattle Sports Concussion Program. His numerous areas of clinical expertise encompass both pediatric, and adult congenital neurological surgery, endoscopic brain surgery, brain tumor surgery and neuro-trauma care. Dr. Ellenbogen is currently an Officer and Director of the American Board of Neurological Surgery, President of the American Society of Pediatric Neurosurgeons and President-Elect of the Society of University Neurological Surgeons. His lab is conducting NIH funded research on molecular imaging and targeting of brain tumors using immunofluorescent nanoparticles.

Dr. Ellenbogen completed his Neurosurgery Training in 1989 at The Brigham and Women's Hospital/Boston Children's Hospital/Harvard Medical School Program. Prior to joining the University of Washington, Dr. Ellenbogen was Chairman of the National Capital Area Neurosurgery Consortium and Residency Program Director, (Walter Reed Army Medical Center and Bethesda National Naval Medical Center), and Neurosurgery Director and Co-Principal Investigator of the Department of Defense Veterans Head Injury Program, also at Walter Reed Medical Center. Dr. Ellenbogen also served as Commander of the 252nd Medical Detachment KE Team (XIII Airborne Corp) during Operation Desert Shield/Storm, and was awarded a Bronze Star for his service.
