

“Kickin’ Chiari”™ Kickball Tournament Sponsorships

Sunday, September 24, 2017

Fred Beekman Park • Softball Fields #1-4

2200 Carmack Rd., Columbus, OH 43210

What It Means to Sponsor the CSF “Kickin’ Chiari”™ Tournament

As a leader in your community, you understand the value of improving the world around you. By becoming a sponsor of the **2017 Kickin’ Chiari Kickball Tournament**, you will help ensure that CSF moves forward with its mission to improve the lives of those affected by Chiari malformation, syringomyelia and related disorders.

Your sponsorship will help CSF fund research and programs, spread awareness, and educate physicians and the public alike, about these conditions. Your gift will also help CSF continue its work on the first ever international patient database that will be instrumental in allowing leading scientists to find real answers for patients and their loved ones.

The Chiari & Syringomyelia Foundation, Inc. is a national 501(c)(3) organization whose mission is to advance knowledge through research and to educate the medical, allied sciences, and lay community about Chiari malformation, syringomyelia and related disorders. For any questions, please contact info@CSFinfo.org.

Chiari (kee-AR-ee) malformation (CM) is a congenital or acquired (rare) malformation in which the back compartment of the skull is too small, resulting in crowding of neurological tissues. The lower part of the cerebellum, called the cerebellar tonsils, hangs down through the opening at the bottom of the skull, preventing cerebrospinal fluid (CSF) from flowing freely into the spinal canal. If any co-morbid conditions are suspected, they should be assessed before surgery.

Syringomyelia (sear-in-go-my-eel-ya) (SM) occurs when a cavity, or syrinx, is formed inside the spinal cord from a build-up of fluid, which results from a blockage, either from a Chiari malformation, spinal trauma, tumor, or other cause. Syringomyelia can cause stretching and, eventually, permanent injury to nerve fibers.

CM, SM and many related disorders can bring on other neurological symptoms that may overlap with those listed above. Some other related disorders could include Idiopathic Intracranial Hypertension (IIH), Tethered Cord Syndrome, Postural Orthostatic Tachycardia Syndrome (POTS), Dysautonomia, Scoliosis, Hydrocephalus, or Spina Bifida.

“Kickin’ Chiari”™ Kickball Tournament
Sunday, September 24, 2017
Registration 9:15am
Tournament 10am – 2pm

Event Sponsor
