## EXPERT SPEAKERS

Gerald Tuite, MD and Carolyn Carey, MD

TOPIC

**Dr. Tuite** - "An update on national collaborative research trials related to Chiari malformation in children"

**Dr. Carey** - "Chiari Malformation"

BIO

**Dr. Tuite** has been a pediatric neurosurgeon at Johns Hopkins All Children's Hospital for over twenty years. He treats patients with all types of neurosurgical problems and he is actively involved in many areas of research, including issues related to Chiari malformation, head shape abnormalities, CSF shunting and spinal disorders.

**Dr. Carey** completed her pediatric neurosurgery fellowship at Primary Children's Medical Center at the University of Utah in 1990. She practiced at Primary Children's and was associate professor of Neurosurgery until joining Johns Hopkins All Children's in 2001. Dr. Carey has experience in all aspects of pediatric neurosurgery with a focus on chiari malformations and tethered cords. She was awarded her MBA in 2000.
